

JSP

No. Hands-on Assignment Topics Covered Status

1

Create a HTML Page, which asks the user to enter a number in a textbox. On clicking the submit button, it places the request to a Servlet. The Servlet generates all Prime numbers which are less than the given number and adds them to an ArrayList and forwards the control to a JSP page. The JSP page iterates through the ArrayList and prints them in a tabular format.

JSP

2

Write a JSP program which when invoked will print today's date and time. [Hint: Use JSP expressions here]

JSP

3

Write a jsp program that prints a table with numbers and their corresponding factorial values.

JSP
